

MULTI-PROCESSING COMBINATION MACHINE FOR PLATES

ONE MACHINE DOES IT ALL

PLASMA CUTTING ■ DRILLING ■ BEVELING ■ TAPPING ■ MILLING ■ MARKING ■ COUNTERBORING

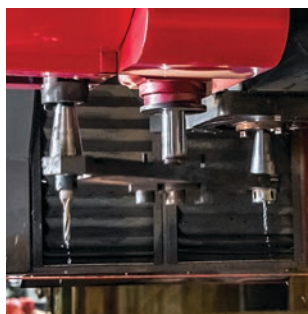

- * 48HP Kinetic K5000XMC multi-processing combination machine
- * 24-tool automatic spindle tool changer
- * Production drilling up to 4" (100mm) diameter, 8" thick
- * Tapping capacity up to 1-1/4" (M32)
- * Face and end milling, interpolation of large holes
- * Plasma cutting and beveling
- * Percussion marking for part identification

Why Liebovich?

- * Quick turnaround and on-time performance
- * No order or parts minimums: from 1 to 1000+ pieces
- * Save on labor, machining, forming and time
- * One-stop shopping from material to finished part
- * Reduce your scrap and increase your profits

19" LCD touch-screen to accurately monitor multi-step, multi-tool processing for your job

Quick 2-second spindle tool change for less downtime than manual processing

Fast, accurate calibration for tool changes

Expansive 16' x 40' cutting table allows small parts to be processed side-by-side, or large orders to be cut within full plate size
